VISUAL IDENTITY

OUR LOGO AND COLOR VARIANTS

Shown below are the basic forms. These are the most accurate representations and should be used whenever possible.

A white background is preferred, though blue is also acceptable at the discretion of the designer.

PRIMARY:

Always use this version first

SECONDARY A:

Use this if primary color cannot be used

SECONDARY B:

Use these only if color is not an option

VISUAL IDENTITY

NEVER MISUSE THE LOGO

The proper use of the ARIES logo is essential in order to ensure consistent corporate identity. The logo must not be altered in any way, redrawn, embellished or recreated; variations are not permitted. Incorrect forms affect the continuity within the system and weaken the logo's overall impact. Detailed in this section are a number of situations to be avoided.

The examples on this page demonstrate many, but not all, of the incorrect variations to be avoided. Such misuses will undermine the value of the logo's status as a trademark and affect continuity of corporate identity.

DO NOT CONDENSE OR EXPAND

DO NOT EDIT CURRENT COLORS

DO NOT USE UNAPPROVED COLORS

DO NOT PUT ON A PATTERN

DO NOT ROTATE ALL OR ANY PART

DO NOT ADD AN OUTLINE

VISUAL IDENTITY

OUR CORPORATE COLORS

Beyond just the logo, ARIES has approved colors that should be used in all forms of communication. By keeping a consistent color pallet, we can be quickly identified.

Color is one of the single most crucial elements when creating a brand. Color produces a strong and cohesive identity. Color plays a major role in our visual perception and is critical in order to evoke the right customer reaction.
