Watch
the video

- Bluetooth connection provides active readouts on the driver's smartphone
- No-install, plug-and-play setup into the vehicle diagnostic port (OBD-II) below the dash
- Provides easy brake controller setup by measuring exact trailer brake gain needed
- Wireless, compact portable design

What It Calculates

Vehicle weight

Vehicle and trailer weight

Cargo / payload

Tongue & pin weight

Weight distribution

Trailer brake gain

How It Works

Weight

Force

Acceleration

BetterWeigh™ calculates towing weights based on the vehicle's acceleration or pitch. These forces are measured automatically from the OBD-II port and displayed on your smartphone. No more tape measure, pen and paper, or trips to the vehicle scale!

Vehicles with manual transmissions or auto-leveling suspension will have limited functionality
