 **SHOCKDROP™
TECHNOLOGY**

Rebellion™ XD is a leap forward in cushioned ball mount technology. It provides more control, confidence and a more comfortable ride, all while protecting the towing system from jerking, jarring, rattling and trailer sway.

- Cushioned isolators reduce rattling and vibration for a more comfortable ride
- Reduces shock loads to the vehicle during sudden braking or acceleration
- Minimizes stress on tow vehicle's suspension and brakes
- Virtually maintenance-free with no airbag or bearings to service
- Adjustable head for precise leveling of various trailers
- Forged steel construction with textured, dark grey teridium finish

Enhanced comfort.

Unlike a metal-on-metal connection, ShockDrop™ absorbs unevenness in the road to maximize your comfort

Improved control.

ShockDrop™ dynamically reacts to jarring, limiting its effects and giving the driver increased control on the road

Compatible with
SecureLatch™
pintle mounts
