

WINDOWS

Purpose

This document outlines the procedure for replacing/installing an 8000 series screen installation.

NOTE: Images used in this document are for reference only when assembling, installing and/or operating this product. Actual appearance of provided and/or purchased parts and assemblies may differ.

Safety

Read and understand all instructions before installing or operating this product. Adhere to all safety labels.

⚠ CAUTION

The "CAUTION" symbol above is a sign that a safety risk is involved and may cause personal injury and/or product or property damage if not safely adhered to and within the parameters set forth in this manual.

⚠ CAUTION

Moving parts can pinch, crush or cut. Keep clear and use caution.

Procedure

1. Slide the window (Fig. 1A) open a minimum of 6" to install the screen.
2. Locate the screen springs attached to the screen frame (Fig. 1B).
3. Align the screen springs into the screen frame channel (Fig. 2A) above the bottom curve of the window frame.
4. Simultaneously push the springs into the screen channel while pushing the opposite side of the screen frame into the channel (Fig. 1C). The screen will make a snap sound when it is inserted.
5. To ensure proper installation, check that both the window and screen slide correctly in the window frame (Fig. 3).
