Introduction

The Bed/Table Pedestal V2 is used for a table with an OEM-supplied tabletop attached, and then can be retracted for use as part of a system to create another bed.

NOTE: Images used in this document are for reference only when assembling, installing and/or operating this product. Actual appearance of provided and/or purchased parts and assemblies may differ.

Safety

Read and understand all instructions before installing or operating this product. Adhere to all safety labels.

This manual provides general instructions. Many variables can change the circumstances of the instructions, i.e., the degree of difficulty, operation and ability of the individual performing the instructions. This manual cannot begin to plot out instructions for every possibility, but provides the general instructions, as necessary, for effectively interfacing with the device, product or system. Failure to correctly follow the provided instructions may result in death, serious personal injury, severe product and/or property damage, including voiding of the Lippert limited warranty.

WARNING

The "WARNING" symbol above is a sign that a procedure has a safety risk involved and may cause death or serious personal injury if not performed safely and within the parameters set forth in this manual.

WARNING

Failure to follow instructions provided in this manual may result in death, serious personal injury and/or severe product and property damage, including voiding of the component warranty.

CAUTION

The "CAUTION" symbol above is a sign that a safety risk is involved and may cause personal injury and/or product or property damage if not safely adhered to and within the parameters set forth in this manual.

CAUTION

Moving parts can pinch, crush or cut. Keep clear and use caution.

Resources Required

- Fastening hardware
- Tabletop material
- Cordless or electric drill
- Appropriate drive bits
- Tape measure

Installation

1. Place OEM-supplied tabletop material squarely on pedestal base.
2. Use tape measure to make sure the tabletop material is centered on the pedestal base.
3. Secure tabletop to the base with OEM-supplied fasteners appropriate for the material and thickness of the tabletop.

NOTE: The pedestal base is able to support 75 pounds in the up position.

Fig. 1

Operation

Retract the table so the tabletop can function as a base in converting the area to a bed.

NOTE: The tabletop must be supported underneath in order to place a mattress on it to create a bed. The weight rating is dependent on the support structures used by the OEM.

1. Locate the latch on the side of the assembly (Fig. 2).

Fig. 2

2. Move the latch to the side (Fig. 2) and then push down on the tabletop (Fig. 3).
3. The retracted table can now function as a bed base (Fig. 4).
4. To move back to the table position, lift up on tabletop. The latch is spring loaded so it will snap into place to hold the tabletop when the top is returned to the up position.
