

## STORAGE AND CONVENIENCE

### Purpose

This document shows a guideline for the Kwikée® Skid Wheels, along with Lippert part numbers, which are obsolete, and which wheels are used on certain coaches.

| Lippert Part # | Old Kwikée® Part # | Description                                     | Class A | Class C | 5th Wheel | Trailers up to 35' | Trailers up to 25' | Trailers, Tent Campers to 15' |
|----------------|--------------------|-------------------------------------------------|---------|---------|-----------|--------------------|--------------------|-------------------------------|
| Obsolete       | 906510000          | Skid Wheels 6" Maxi-Swivel                      | X       |         |           |                    |                    |                               |
| Obsolete       | 906520000          | Castor Swivel 906520-6860-01-Y                  |         | X       | X         | X                  |                    |                               |
| Obsolete       | 906530000          | Skid Wheels 6" Med Swivel                       |         |         | X         |                    | X                  |                               |
| Obsolete       | 906540000          | Skid Wheels 6" Super Swivel                     |         |         |           |                    |                    | X                             |
| Obsolete       | 906560000          | Skid Wheel                                      |         |         |           |                    |                    | X                             |
| Obsolete       | 906580000          | **Discontinued Kit-Wheel Only 1611040 Available |         |         |           |                    |                    |                               |
| Obsolete       | 906600000          | Skid Wheels 3" Protecta Hitch                   |         |         | X         |                    | X                  |                               |
| Obsolete       | 90654100           | Skid Wheel Replace Super Swivel 6540            |         |         |           |                    |                    | X                             |
