

ConnectAnywhere

QUICK START GUIDE

1. DOWNLOAD THE LCI ONECONTROL APP

From your smart device open the app store and download the LCI OneControl App.

2. CREATE A ONECONTROL USER ACCOUNT AND CONNECT YOUR RV

Once Downloaded, open ONEControl, and follow the in-app prompts to create a user account and connect your RV.

3. BE SURE TO VERIFY YOUR EMAIL ACCOUNT

Once you have created a user name and password for the LCI community you will be sent a verification email.

4. LOGIN TO THE LCI USER COMMUNITY

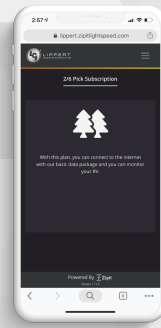

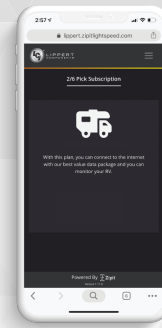

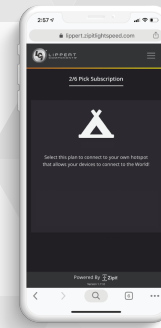

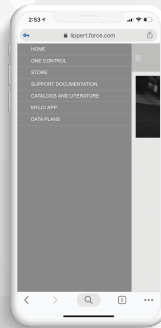

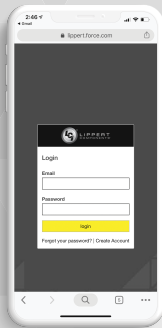

Once an email address has been verified you will be automatically routed to the LCI Community Login page. This is where you'll enter in the username and password that you setup earlier in the process.

5. SELECT YOUR DATA PLAN

Open the menu bar on the LCI Community webpage and select data plans from that list.

6. DATA PLAN OPTIONS

You will then be asked to select the data plan that best suits your needs. Some other device information will also be required. Follow the prompts until the process is completed.

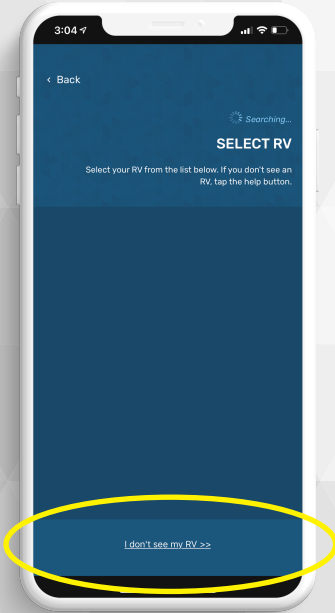

ConnectAnywhere

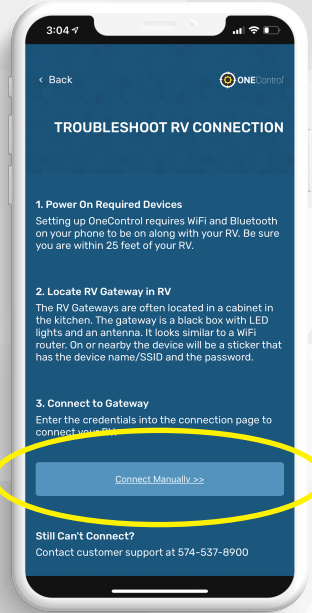

TROUBLE SHOOTING GUIDE

APPLE

In the event that your ConnectAnywhere wifi network does not appear, select "I don't see my RV".

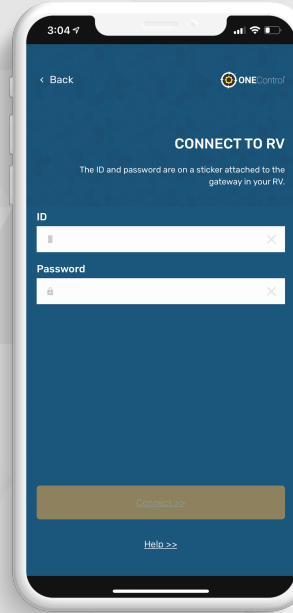

Follow the prompted steps to locate your gateway and select "Connect Manually".

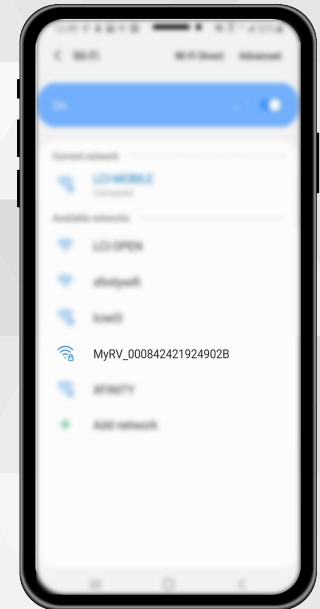

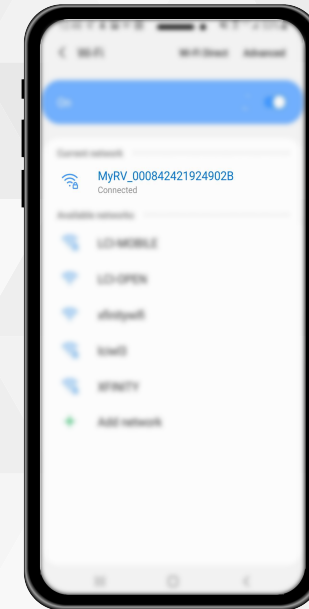

Type in your units SSID and password when prompted

Note: SSIS and password are case sensitive

ANDROID

For some Android users to connect to their RV's ConnectAnywhere system they will have to enter their device's settings and select their wifi options to select the ConnectAnywhere network as shown below.

USING AND CONNECTING **VOICE**

CONGRATULATIONS

Your RV is equipped with ONEControl ConnectAnywhere with Voice and v3 months of free cellular data.

Here's how to get started!

1. FIRST THINGS FIRST

Before using OneControl voice to control your ConnectAnywhere System, locate the LCI OneControl app in the app store and install it onto your smart device. Complete the setup process and register your coach in the app. You will also need the Amazon Alexa app to setup your Echo device.

2. ENABLE THE ONECONTROL VOICE SKILL

From the menu, select Skills & Games. Locate the LCI OneControl Voice skill using search, and then select it to open the skill details page. Select Enable Skill, then select Settings, then Link Account, then Login and grant the skill the required permissions to control your coach.

3. CONNECTING ECHO DOT

From the menu in the Amazon Alexa App, select Add Device and follow the process to connect your Echo device to your ConnectAnywhere Wi-Fi network. Your system's network will begin with "MyRV_"

4. USING THE ONECONTROL VOICE SKILL

To use the LCI OneControl Voice skill, activate your Echo by saying "Alexa" then "Tell OneControl" followed by the command, such as "Alexa, tell OneControl to turn on my lights", or "Alexa, ask OneControl the outside temperature".

Tip: Refer to the LCI OneControl skill's detail page for more examples of things to say and additional information.
