

AWNINGS

1. Insert drive head with 3-way pivot arms on the clockwise side of the cord rails (Fig. 1).

NOTE: On flat or pitched awnings, the drive head knob and drive head lock line up on the clockwise side of the second cord (Fig. 2).

NOTE: On short arm awnings, the drive head knob and drive head lock line up between the two cords (Fig. 3).

2. Push end cap completely flush with roll tube and attach with three 299419 screws. Use low setting on screw gun to ensure the roll tube is not stripped (Fig. 4).
