On-the-Go™ Ladder (Designed for use with the On-the-Go™ Prepped Receiver) Installation and Owner's Manual (For Aftermarket Applications)

Introduction

The On-the-Go Ladder is a fully-adjustable and collapsible ladder with safety locks at each rung for extra security. The Ladder is designed to be used with the OEM-installed On-the-Go Receiver, but can be used without the Receiver as a lean-to ladder.

Additional information about this product can be obtained from lci1.com/support or by using the LippertNOW app. Replacement kits can be ordered from <https://store.lci1.com/> or by using the LippertNOW app.

The LippertNOW app is available for free on the Apple App Store® for iPhone® and iPad® and also on Google Play™ for Android™ users.

Operation

WARNING

REMOVE AND STOW THE LADDER PRIOR TO TRAVEL. FAILURE TO PROPERLY REMOVE AND STOW THE LADDER COULD RESULT IN PERSONAL INJURY OR PROPERTY DAMAGE.

Overview

Each ladder rung is extended and retracted via telescoping rails held in place by locks and operated by sliding the lock buttons (Fig.1).

Fig.1

Sliding the button away from the rail disengages the lock. Sliding the button towards the rail engages the lock (Fig.2).

Fig.2

full retraction

full extension

Fig.3

The ladder can be fully retracted when the ladder is being stored, or fully extended during use if the full height of the ladder is required (Fig.3).

NOTE: The ladder can be used under a partial extension in the event that the full ladder height is not needed. Care should be taken to ensure that rung spacing is even to avoid potential for tripping, or else group unused rungs at either the top or the bottom of the ladder.

Extending and Retracting the Ladder

Fig.4

1. Disengage both lock buttons on the rung (Fig.4).

Fig.6

3. Engage the lock buttons (Fig.6).

Fig.5

2. Extend or retract the rung (Fig.5).

WARNING

MAKE SURE ALL LOCK BUTTONS ARE IN THE "LOCK" POSITION PRIOR TO ASCENT OR DESCENT. UNLOCKED LOCK BUTTONS MAY CAUSE INSTABILITY AND COULD LEAD TO A FALL.

CAUTION

MOVING PARTS CAN PINCH, CUT, AND CRUSH. KEEP HANDS OFF MOVING PARTS AT ALL TIMES AND EXERCISE CAUTION WHEN EXTENDING OR RETRACTING THE LADDER.

On-the-Go™ Ladder (Designed for use with the On-the-Go™ Prepped Receiver) Installation and Owner's Manual (For Aftermarket Applications)

Fig.7

The ladder can now be used with the On-the-Go receiver, if installed, by inserting the attached mounting hanger of the ladder into the slots on the receiver (Fig.7) and pulling down to make sure the mounting hanger is fully inserted into the receiver.

⚠ CAUTION

USE CAUTION ASCENDING AND DESCENDING THE LADDER IF ALL THE LADDER TREADS ARE NOT FULLY EXTENDED AS LADDER RUNG SPACING WILL NOT BE AS UNIFORM AS EXPECTED.

Essential Ladder Operation Safety

⚠ DANGER

FALLS FROM A LADDER FROM ANY HEIGHT CAN LEAD TO DEATH OR SERIOUS PHYSICAL INJURY. OBEY SAFETY MEASURES AND DO NOT USE THE LADDER FOR ANYTHING OTHER THAN ITS INTENDED USE.

- Do not exceed the 330 lb. (150 kg) maximum weight capacity of the ladder.
- Only 1 person at any given time should be on the ladder.
- Ensure all lock buttons are in the “lock” position prior to using ladder (Fig.7).

- Position the ladder only on level, stable ground that will not shift under weight.
- Maintain a ladder angle of approximately 75 degrees (Fig.8) when using with the receiver or independently of the receiver.
- Do not overreach. Keep torso between the side rails at all times.
- Always face the ladder when ascending or descending.

Fig.8

- Equipment carried up and down the ladder should be manageable and easy to handle.
- If the ladder is being used independently of the receiver, ensure that the ladder extends at least 3 feet past the height of the landing point.
- If the ladder is being used independently of the receiver, make sure that the surface against which the ladder is resting is not slippery or overly smooth.

Installation and Owner's Manual

(For Aftermarket Applications)

Maintenance

The ladder comes with a Velcro strap (**Fig.9**) for storage when the ladder is not in use.

Fig.9

Regularly inspect the receiver and ladder for any signs of wear over time that may affect the safety or the stability of either component.
