System Information

The Sliding Swivel Seat Base allows the user to slide the seat base out at a 45° angle, so that the seat can be swiveled 180°. There are five models of the seat base available for the vehicles listed below.

NOTE: There are slight differences in appearance between the different models, but they all function the same as the model shown.

Part Number	Vehicles and Seat
696038	Ford CLS C (Driver Side)
696039	Ford CLS C (Passenger Side)
670698	Freightliner (Driver Side)
670699	Freightliner (Passenger Side)

Safety

This manual provides general instructions. Many variables can change the circumstances of the intended instructions, i.e. the degree of difficulty involved in the service operation and the ability of the individual performing the operation. This manual cannot begin to plot out instructions for every possibility, but will provide the general instructions, as necessary, for operating and servicing the device, product or system. In the event the skill level required is too advanced or the procedure too difficult, a certified technician should be consulted before performing the necessary service. Failure to correctly perform a troubleshooting procedure may result in voiding the warranty, inflicting personal injury or death.

WARNING

The "WARNING" symbol above is a sign that a procedure has a safety risk involved and may cause death or serious personal injury if not performed safely and within the parameters set forth in this manual.

WARNING

Failure to follow instructions provided in this manual may result in death, serious personal injury and/or severe product and property damage, including voiding of the component warranty.

CAUTION

The "CAUTION" symbol above is a sign that a procedure has a safety risk involved that may cause personal injury and/or product damage, including voiding of warranty, if not performed safely and in accordance with the safety procedures stated herein.

CAUTION

Moving parts can pinch, crush or cut. Keep clear and use caution.

Swivel and Slide Operation

⚠ WARNING

Do not attempt to operate the Swivel Seat Base while the vehicle is motion.

The seat slide lever that operates the Swivel Slide Seat Base is on the right side (curbside) of the driver seat and on the left side (roadside) of the passenger seat.

1. Pull the seat slide lever up (Fig. 1) to slide the seat base from its original position towards the center of the vehicle at a 45 degree angle (Fig. 2).

NOTE: Driver side seat base shown.

2. After the slide mechanism has clicked into place, the seat can be rotated up to 180 degrees from the forward-facing position.

Drive Position

⚠ WARNING

Swivel seat base must be locked into the forward-facing position before putting vehicle into motion.

To return to a driving position:

1. Swivel the seat back to the forward-facing position.
2. Pull up on the seat side lever (Fig. 1) and slide the seat back to the drive position until it clicks into place.

Maintenance

There are no servicable parts in the Sliding Swivel Seat Base.
