

TOWING

Follow These Steps to Determine the Pin Box Replacement Model:

1. Look for the white sticker with a 4-digit number on it (ex. 1621 or 1716).
2. What is the gross vehicle weight rating (GVWR) of the unit?
3. Visually compare illustration to the mounting wing on the 5th wheel.
4. Measure length of box (front row of bolts to center of kingpin E).
5. Measure bolt pattern (all three dimensions A, B and C if needed).
6. Measure box width (G).

NOTE: Write in the measurements of the Pin Box in the Actual Dimensions area of the chart.
