Thomas Payne® Tri-Fold Sofa

Installation and Owner's Manual

(For Aftermarket Applications)

Introduction

Our steel frame Tri-Fold Sofa requires no spare mattress to store, however requires some assembly. In just four simple steps, it transforms into a comfortable bed. Traditional hide-a-beds have uncomfortable mattresses with support bars that can make sleeping uncomfortable. Air mattress hide-a-beds eliminate the support bar issue, but can be damaged more easily and become unusable. The Tri-Fold Sofa converts from sofa to a very supportive, high-density foam sleep surface in four simple steps. Now campers can actually look forward to sleeping on the couch!
