

JP54-051

OVERHEAD MOLLE PANEL

INSTALLATION INSTRUCTIONS

TOOLS NEEDED

- 13mm wrench
- 1/2" wrench
- 9/16" wrench

STEP 1:

Position top rack in Jeep in line with factory rivet nuts in the roll bar of the Jeep

STEP 2:

Cut slits in roll bar lining to allow supplied 8mm bolt to pass through the molle rack bracket and into the factory rivet nut located in the top of the roll bar

STEP 3:

Install supplied 8mm bolts, securing molle rack to roll bar

STEP 4:

Position support bar such that it holds the upper molle rack level and the support tube mounting brackets are against the driver and passenger side roll bars

STEP 5:

Using the supplied U-bolts and spacers, secure the support tube mounting brackets in the desired location along the roll bars

STEP 6:

Clip support tube into c-clips located on upper molle rack
