

RUBBER LEAF SUSPENSION SYSTEM

Provides a softer, more comfortable ride

Above. Beyond. Always.

RUBBER LEAF SUSPENSION [RL] SYSTEM

The MORryde Rubber Leaf Suspension System (RL) works in conjunction with the existing leaf springs to give you a softer, smoother, more comfortable ride. Whether it is chuck holes, dirt roads, or railroad tracks, MORryde's unique design combined with rubber's natural tendency to isolate and absorb road shock provides improved passenger comfort and better protection for your vehicle.

The RL suspension system can be ordered on new units from the manufacturer or installed aftermarket on units equipped with leaf springs in a very cost effective manner. Each system comes with a 3 year/ 70,000 mile warranty and requires minimal maintenance to sustain optimal performance. This unique system is available for trucks, ambulances, and motorhomes.

Better protection from damging road shock

- Increased suspension travel with up to 4" of total wheel travel
- Rubber shear springs isolate and absorb road shock to provide a more comfortable ride for all your passengers
- Softened suspension through a lower spring rate
- Reduced vibration from rough roads
- Overall higher quality ride
- Easily adjustable to account for wheel chair lift

Above. Beyond. Always.

At MORryde, we have a passion for solving problems. Whether we're fabricating custom solutions, modifying a commercial chassis, or creating our innovative products, we answer to a wide range of markets and deliver on a variety of needs. At MORryde, it's simply about doing MORE for our customers, and it doesn't stop at the sale. We stand behind our products, believing in quality first, service always. No matter the issue, we'll be the first to respond and the last to be satisfied. In short, we build better — together.

Above. Beyond. Always.
