

THE STABLE STEP SOLUTION.

No more bouncing in and out of your RV.

The **StepAbove®** entry steps provide a stable, comfortable entry to and exit from your RV and store in the doorway during travel.

Now available in a strut-assist model that makes lifting the step completely effortless.

Complete your **StepAbove®** set-up with the easy bolt-on handrail for even more stability, and the Step Storage Box to fill that empty space left behind by the stock entry steps.

QUICK CONNECT STEP

The same design and stability as our StepAbove® — only removable.

The perfect step for motorhome and towable RV owners or anyone who needs the flexibility of a removable step. Easily detach your step with the quick release mechanism and store it in the truck bed or baggage compartment.

RUBBER PIN BOX*

Leave rough towing behind with MORryde's revolutionary Pin Box System. Its advanced rubber shear spring works to absorb towing shock for more comfortable, stress-free travel.

BETTER HANDLING & SMOOTHER TOWING

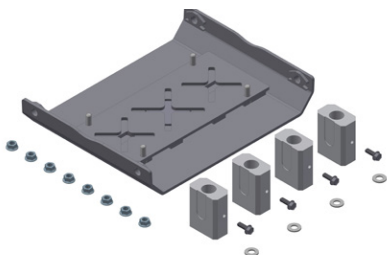

- Jerk-free starts and stops
- 3" fore/aft travel and 1.5" side-to-side travel
- Maintenance-free
- Reduces back-and-forth chucking and jerking
- Cushioned sensation over uneven roads
- Uses 100% natural rubber shear springs

Unique Rubber Shear Spring Absorbs Shock

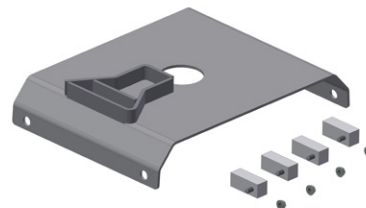

To make things even smoother for you, our RPB System is available for installation in the aftermarket and installs in an hour on most 5th wheels. For more details, contact our parts department at 574-293-1581.

TO ORDER A PIN BOX SYSTEM, PLEASE IDENTIFY THE FOLLOWING:

- Part Number of the stock pin box (usually found on a label on the pin box)
- GVWR* of the trailer: MORryde has a specific rubber spring for different weight ratings
- Trailer's loaded weight

OR If the stock part number is not available, determine the bolt pattern (A), width (B), and distance from center of king pin to center of first row of bolts (C), then visit MORryde.com and search for the Rubber Pin Box identification guide to convert these measurements into a MORryde part number.

* GVWR above are general guidelines and may not directly correlate to shear spring rating.
