

CHAIR BUDDY™ QUALIFIER

The Convenient Way to Secure Your Dinette Chairs

Please review the qualifications below to ensure Chair Buddy will work properly with your table and chairs.

DINETTE TABLE - STYLE & SIZE

Chair Buddy is designed to be used with a standard 30" dinette table with a center post and 17"-19" chairs.

TABLE POST

The post of the table must have a flat surface area that is 3"w x 4"h facing the chairs.

ADAPTOR PLATE

If the table does not have a center post, the adaptor plate (sold separately) can be purchased to accommodate a Chair Buddy.

APRON

If there is an apron that hangs below the outside edge of the tabletop, Chair Buddy requires a minimum distance of 8.6" between the post and the interior face of the apron.

SLIDING DINETTE TABLE

On sliding dinette tables, Chair Buddy should be mounted low enough to allow the table to move without interference. However, the minimum distance from the bottom of the mounting plate to the floor is 19.5".

Above. Beyond. Always.
