

PDI Lithium Switch

Progressive Dynamics Inc. is the 1st to design the innovative NEW PDI Lithium Switch!!!

The Lithium Switch can be used with either Lead Acid batteries or Lithium Ion Batteries by flipping a single switch!

The Lithium switch is set to Lead Acid Batteries and it is located on the converter section next to the coil of the PD 4000 Series. The Lithium Switch on the PD 4500 Series is located on the DC Distribution Board. To switch converter into Lithium Mode (LI) simply slide the Lithium Switch up into the top position!

This label is located on ALL of our products that have the Lithium Switch!
