

Jack Knife Assembly Instructions

The tools you will need for this project:
•Included with sofa

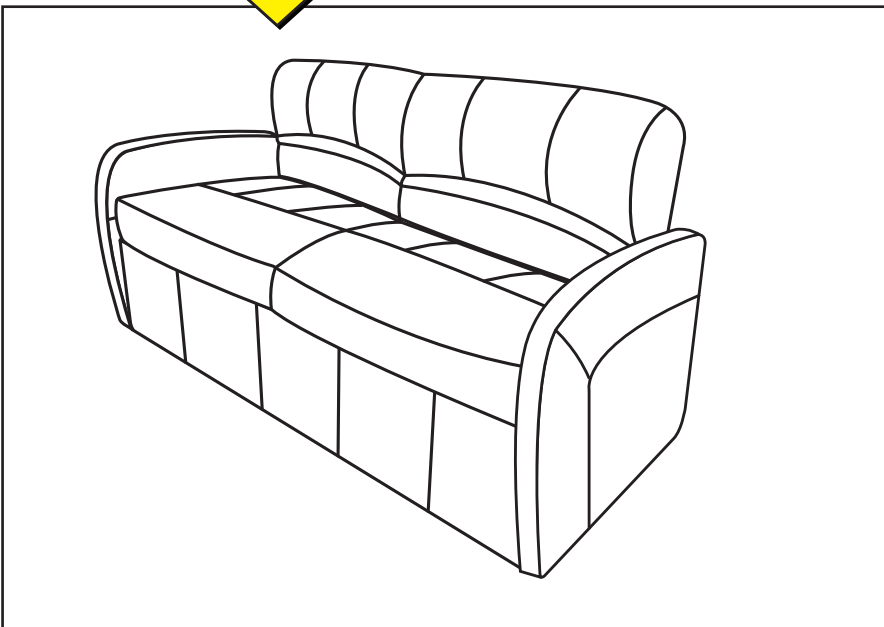

Step 1:

Locate the mounting holes on either side of the kickboard (they would be on the flip side, not the side facing out). There should be two screw holes on either side. Using the bolts provided, secure the kickboard to the two arms of the sofa.

Step 2:

Once the kickboard and arms are in place, locate the hinges on either side of the seat. Using the bolts provided, secure the hinges to the two arms of the sofa, with the seat of the sofa facing up.

Step 3:

Once all pieces are secured, you can mount your sofa. Using a set of L brackets that are available on our site as well as 1/2" screws, place your sofa in the location you would like it to mount to and bolt the inside bottom edge of the sofa to the L brackets and the L brackets to the floor. Make sure you are aware of what is under the floor so that you avoid damaging any plumbing or electrical connections below.
