Important Safety Instructions

Please save these instructions.

This manual contains important safety, installation, and operating instructions for the Renogy Tilt Mount Brackets hardware system. The following symbols are used throughout the manual to indicate potentially dangerous conditions or important safety information.

 **WARNING:** Indicates a potentially dangerous condition. Use extreme caution when performing this task.

CAUTION: Indicates a critical procedure for safe and proper operation of the system.

NOTE: Indicates a procedure or function that is important to the safe and proper operation of the system.

General Safety Information

- Read all of the instructions and cautions in the manual before beginning the installation.
- Chance to strip nuts and bolts exists.
- Do **NOT** substitute parts from other manufacturing sources, doing so may void the warranty and/or result in an unstable system
- This system does **NOT** possess any compliance with residential structural codes and should not be used in place of a system that is, if required by local regulations

Installer Responsibilities

- Installation compliance with any applicable codes which are in force at the installation site
- Installation compliance and compatibility with all system components and the environment including but not limited to roofing, system components, etc.
- Verification that all project information is accurate

WARNING: This equipment should be installed, adjusted, and serviced by qualified electrical maintenance personnel familiar with the construction and operation of the equipment and the hazards involved. Failure to observe this precaution may result in bodily injury. Protective gloves and safety glasses should be worn during installation.

General Information

The Renogy Tilt Mount Bracket is designed with intent on mounting to your RV. It is suitable for most Renogy panels and can be mounted on any flat surface. This mount optimizes performance by allowing tilting when the RV is parked, and flat mounting when the RV is in motion. The angle adjustability is dependent on the panels themselves, with bigger panel sizes decreasing angle adjustability.

Key Features

- High grade aluminum finish, corrosion free
- Multi-Angle Adjustability
- Designed for tilting when stationary and lays flat when in motion
- Suitable for most Renogy panels

Angle Adjustability

Note: The angles for the Renogy Tilt Mount bracket are based off a portrait panel installation. As the solar panel size grows, the angle freedom minimizes.

Note: The following angles are a general framework based on bracket length.

Minimum Angle°	Maximum Angle°	Degree Freedom
0	90	90

Identification of Parts

Image	Component	Qty
	Fixed L-Bracket (A)	4
	Tilt L-Bracket (B)	2
	M8 Plastic Knob Screw (C)	6
	M8 Wing Nut (D)	6
	M6 x 16mm Hex Cap Bolt (E)	4

	M6 Split Lock Washer (F)	4
	M6 Flat Washer (G)	8
	M6 Hexagonal Nut (H)	4
	M8 Washer (I)	6
	M8 Spring Washer (J)	6
	#10 x 1 1/4 in Self-Drilling Cap Screw (K)	6
	Plastic Retaining Ring (L)	6

Installation

WARNING: The equipment should be installed, adjusted, and serviced by a qualified electrical maintenance personnel familiar with the construction and operation of the equipment and hazards involved. Failure to observe this precaution may result in bodily injury. Protective gloves and safety glasses should be worn during installation.

CAUTION: The stripping of the threads on the nuts and bolts is possible.

Note: There are no bolts included to secure the bracket to your RV surface.
