TriMark Europe Adds Manufacturing Capacity to Better Serve Demanding Markets

Bardon Hill, Coalville, United Kingdom - TriMark Europe Ltd, has announced that they have expanding manufacturing capacity with the purchase of 3 plastic injection moulding machines. The Sandretto presses, up to 485 tonnes in capacity, expand current capacity and capabilities.

"We have developed a considerable expertise in the design and manufacture of injection moulded thermoplastics at TriMark and this extra capacity is part of our growth strategy," states Keith Dolbear, Managing Director of TriMark Europe and West Alloy. "In addition to moulding parts for our core door hardware range, we are already supplying design services, tooling and general components for our customers for general plastic parts."

About TriMark:

TriMark Corporation is an employee-owned company and is a recognized leader in the design and manufacture of quality hardware products for the caravan, agricultural, truck, construction, and industrial enclosure markets. The TriMark corporate headquarters is located in New Hampton, Iowa, USA. TriMark serves the European market through its UK subsidiaries TriMark Europe Ltd, based at Bardon Hill, near Coalville, Leicester, as well as West Alloy based in Sutton, Surrey. TriMark serves the China market through TriMark Xuzhou. TriMark has been a valued partner and supplier to Caterpillar for more than 30 years, in addition to other global customers, including John Deere, Volvo, Paccar, AGCO, Case New Holland, and Winnebago, who provide world class vehicles and equipment.
