

TriMark Parts

TriMark Service and Replacement Parts provide and support “just-in-time” shipping and stocking programs for small OEM’s and manufacturers. Our goal is to carry sufficient inventory that can be ready to ship within 48 hours, providing small to medium order quantities in shorter lead-times than TriMark Corporation which is a “build to order” facility. Products include a variety of latches, handles, linkages, striker bolts, locks, keys, keypads and FOB’s, hinges and accessories.

In addition, TriMark S&R provides the original TriMark hardware products and keys to dealers, locksmiths and end users. We also cut and sell most of the keys originally sold by TriMark Corporation. Our technical staff can assist in the proper selection and application of our products and help with the identification of repair or service parts.

**050-0200 Slimline
Rotary Latch**

**050-0600 Single
Rotor Compartment
Latch**

**040-0600 TriMount
