

Product Performance Summary

030-0550, Heavy Duty Pivoting Catch Compartment Latch

Cycle Test:

Latch will meet a cycle goal of 10,000 cycles, when cycled with an acceptable striker plate load.

(Striker plate load may vary depending on application, which may vary life of latch)

Traverse Load Test of Hook Detail:

When tested with a TriMark approved strike plate, latch meets 1000 lbf (4448 N).

Load on Handle at Full Travel:

Handle will meet 400 lbf (1779 N) when rotated beyond full travel.

NOTE:

The Product performance values shown are intended to be applied as a general guideline only, as specific applications and installation may affect the results. It is recommended that the Customer request a sample and conduct their own testing to determine the suitability of the Product for the intended purpose and specific application. Strength data is given as maximum loads at which the product is operable, however no safety factor has been applied.

Additional Testing information is available upon request.
