P119 Locking Door Handle

The P119 Locking Handle is a standard locking door handle for use with entrance and compartment doors. Available in three different operational models: Manual, pneumatic, and electric (operated with an electric actuator). Available with up to 40 different combinations utilizing the patented "JOK" (Just One Key) system, where the key and locking tumbler are supplied separately from the handle.

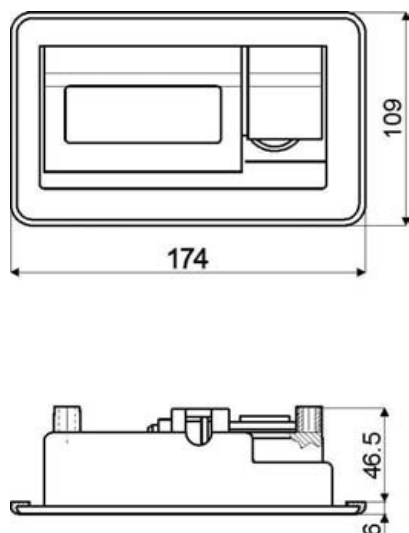

Bus / Motorcoach / Mass Transit

- Access Panels
- Baggage Doors
- Engine Compartments / Hoods
- Exterior Storage Compartments
- Interior Compartments

Prima Product Number	TriMark Part Number	Description
P119	99-51221	Door Handle Manual with Key A-137
P119	99-66129	Handle Manual JOK out

P141 Locking Door Handle

Similar to the P119, this handle offers an open bail handle providing an alternative operating action.

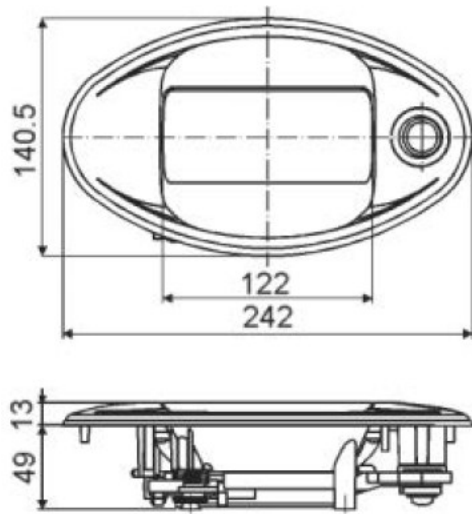

Bus / Motorcoach / Mass Transit

- Access Panels
- Baggage Doors
- Engine Compartments / Hoods
- Exterior Storage Compartments

Prima Product Number	TriMark Part Number	Description
P141	99-60482	Door Handle Manual With Key A-137
P141	99-63929	Handle Manual JOK
P141	99-69387	Door Handle, Electrical

P397 Locking Door Handle

The P397 Locking Handle offers a more streamlined and elegant style, but retains the same basic functions as the P119 handle. Available in manual, pneumatic, and electronically operated models. The P397 is available with the "JOK" (Just One Key) system, where the key and tumbler are supplied separately, allowing up to 40 different lock/key combinations to be available.

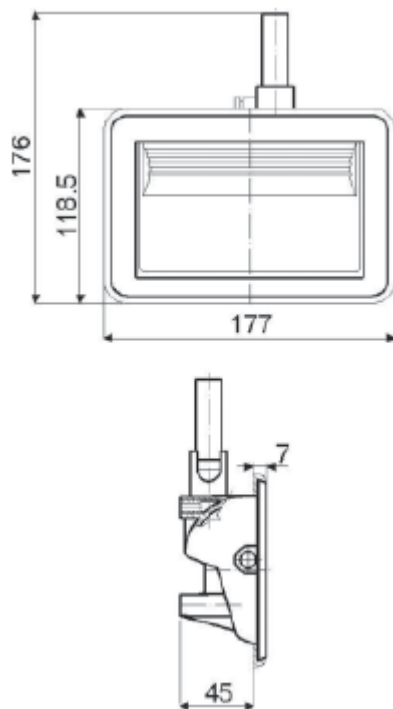

Bus / Motorcoach / Mass Transit

- Access Panels
- Baggage Doors
- Engine Compartments / Hoods
- Exterior Personnel Doors
- Exterior Storage Compartments

Prima Product Number	TriMark Part Number	Description
P397	99-61861	Handle Manual JOK
P397	99-69819	Handle Pneumatic, No Key
P397	99-66391	Gasket

P183 Flush Compartment Handle

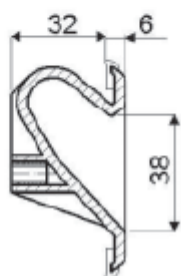

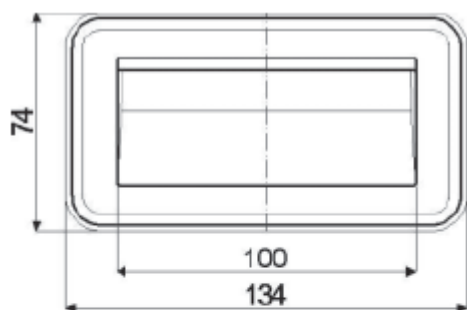

The P183 handle is a standard door handle for use with compartment doors and allows for remote location of a cam lock providing flexibility of key codes. The flush paddle design prohibits water and dirt build-up in finger access, yet provides for ease of opening and pull down of baggage doors. Two point cam provides for single or 2-point connection to latches.

Prima Product Number	TriMark Part Number	Description
P183	99-69767	Handle Manual

P179 Luggage Compartment Handle

The P179 handle provides a stylish and convenient assist handle for interior and exterior luggage and compartment doors.

Bus / Motorcoach / Mass Transit

- Access Panels
- Baggage Doors
- Engine Compartments / Hoods
- Exterior Storage Compartments
- Interior Compartments
- Interior Personnel Doors

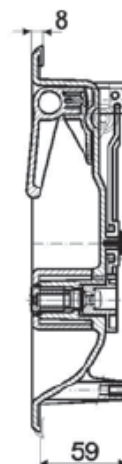

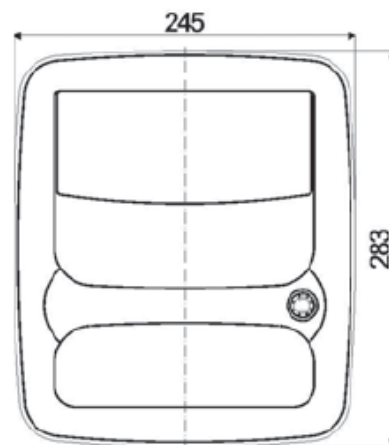

Prima Product Number	TriMark Part Number	Description
P179	99-65737	Door Handle Cup Style

P332 Locking Door Handle

The P332 Handle is designed for large pull down baggage doors and features a very robust molded handle for closing. This product can be supplied to work with a single latch all the way up to 4 latches. Available only in pneumatic operated versions. The P332 is available with the "JOK" ("Just One Key") system, where the key and tumbler are supplied separately, allowing up to 40 different lock/key combinations to be available.

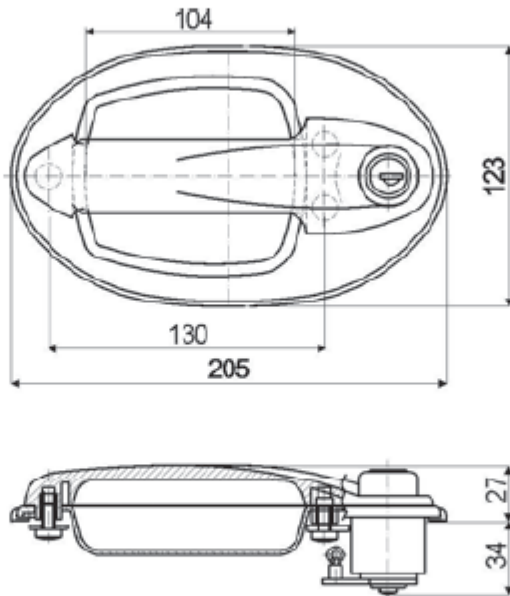

Bus / Motorcoach / Mass Transit

- Access Panels
- Baggage Doors
- Engine Compartments / Hoods
- Exterior Storage Compartments

Prima Product Number	TriMark Part Number	Description
P332	99-63969	Handle PN JOK

P61 Driver's Door Handle

The P61 Push Button Handle is designed to work directly with P62 Forked Lock with Logic providing a driver's door solution. The P61 is available with the "JOK" ("Just One Key") system, where the key and tumbler are supplied separately, allowing up to 40 different lock/key combinations to be available.

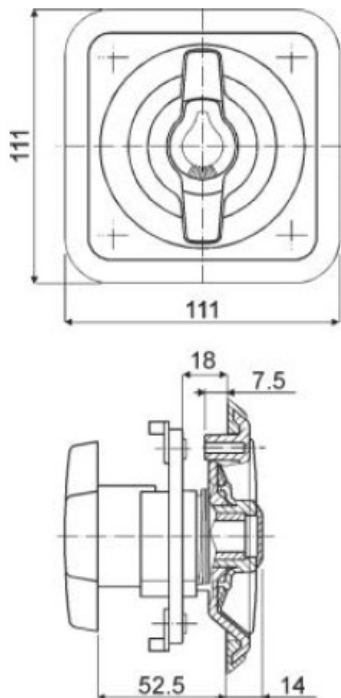

Bus / Motorcoach / Mass Transit

- Exterior Personnel Doors

Prima Product Number	TriMark Part Number	Description
P61	99-69857	Driver's Door Handle With Key A-137

P203 Lav Door Handle

Perfect for interior or exterior door applications that require a locking handle. Locking hardware and latches are also available to provide a complete locking hardware solution. This handle is UV-protected to withstand the elements for exterior use.

Bus / Motorcoach / Mass Transit

- Exterior Personnel Doors
- Interior Personnel Doors

Prima Product Number	TriMark Part Number	Description
P203	99-67777	Door Handle Lavatory With Key A-137

P230 Electronic Door Handle

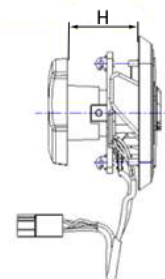

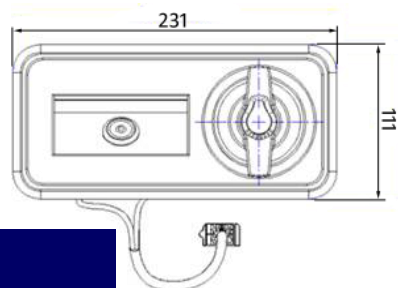

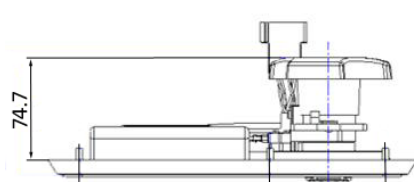

The P230 Electronic Door Handle is a sophisticated locking door handle that utilizes micro switch technology for locking status and door-opening functions. The P230 comes in three different models, each with different characteristics...Manual, Electric, Electro-Pneumatic operational.

Featuring UV protection and can be ordered in up to 40 different locking combinations, employing the patented JOK ("Just One Key") concept.

Bus / Motorcoach / Mass Transit

- Exterior Personnel Doors

Prima Product Number	TriMark Part Number	Description

- Exterior Storage Compartments
- Interior Compartments

Prima Product Number	TriMark Part Number	Description
P117	99-66287	Locking Pin

P246bis Door Handle

The P246bis Door Handle is the ideal choice for any interior door application. Constructed from durable PA6 plastic, the P246bis Door Handle is also UV-resistant so it is protected from the elements. Locking hardware and latches are also available for a complete installation.

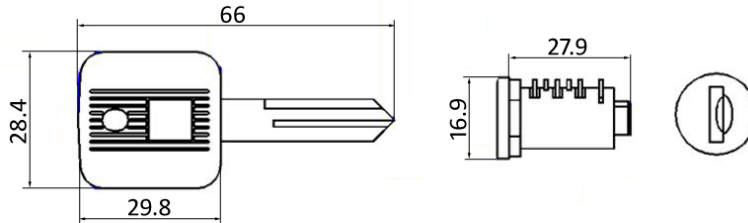

Prima Product Number	TriMark Part Number	Description
P246bis	99-68138	Interior Handle

P474 J.O.K. Lock/Key Set

Most of the locking door handles from Prima utilize the patented P474 “Just One Key” system. With the JOK system, handles and lock components are supplied separately and can be installed with ease. Allows every lock on a bus accessible with just one key. Up to 40 different key/lock combinations are available.

Prima Product Number	TriMark Part Number	Description
P474	99-63999	Tumbler With Key A-137
P474	99-69209	Lock Barrel and Key JOK - PS200

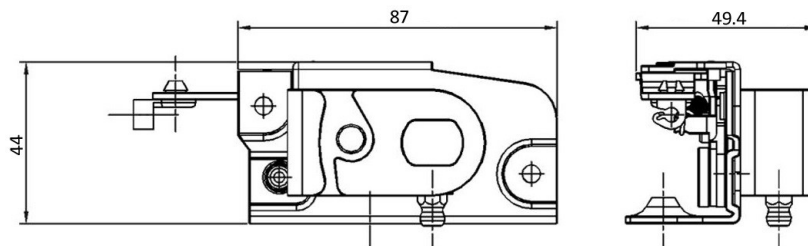

NOTE: to be used only with P53J lock and the handles J.O.K. version.

P70 Forked Lock Latch

This heavy duty lock is ideal for bus and coach compartment doors. It's zinc-plated finish prevents corrosion while an integrated lubrication fitting makes maintenance easy and ensures long life. Works in conjunction with the P70bis and the P130 Control Pin.

Bus / Motorcoach / Mass Transit

- Access Panels
- Baggage Doors
- Engine Compartments / Hoods

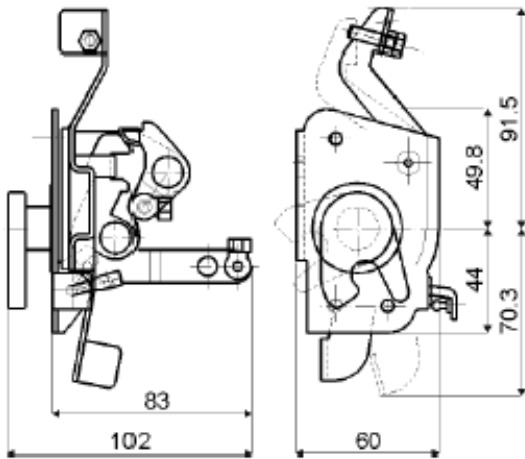

Prima Product Number	TriMark Part Number	Description
P70	99-51700	Forked Lock LHS

P000 	99-62768	Replacement knob for P203 / P230

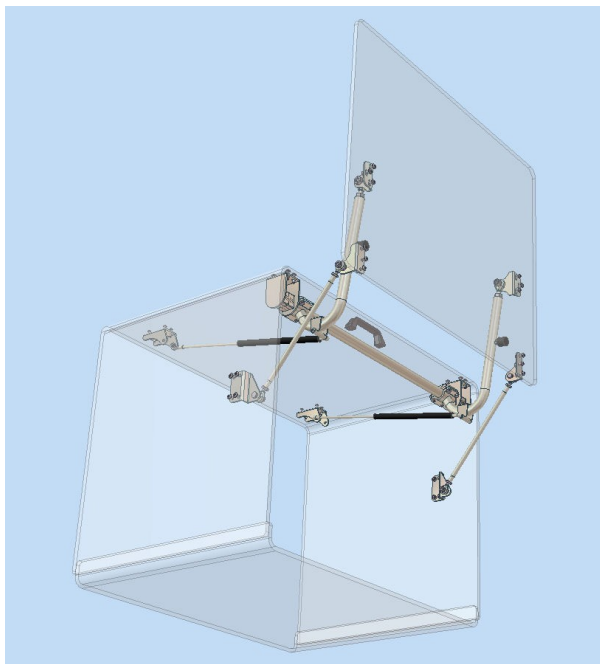

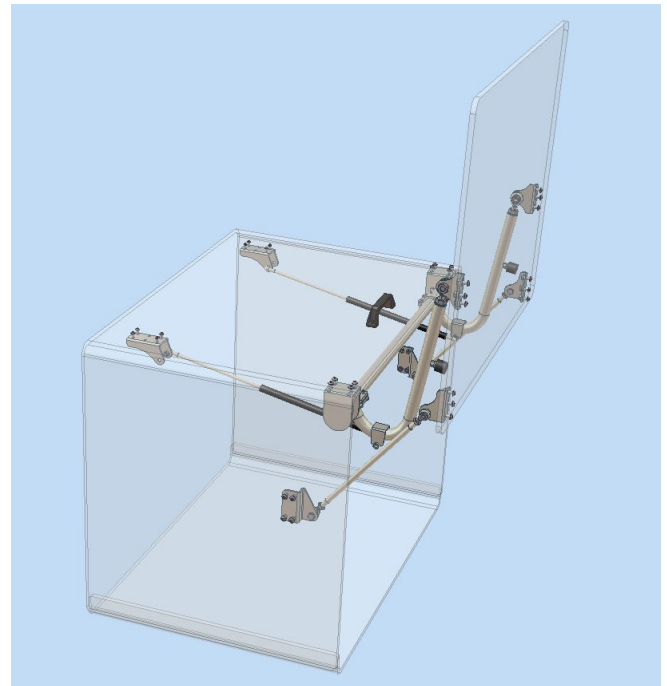

120-1000 ClassicDOOR Hinge System

The ClassicDoor pantograph hinge system is a pre-engineered solution to provide kitted components that simplify the design, fabrication, assembly and opening of bus and motor coach luggage compartment doors. Variables to determine the proper kits; are the weight of the door, width of the door and the height that the door travels vertically. The following are the components that make-up the kits:

- Tube Assemblies
- Lever Arms
- Brackets and Struts
- Gas Shocks

Designed For

- Medium to heavy-duty bus and motor coach pantograph hinge style luggage doors
- Door weights of 30-80 Kg (66-175 lbs.)
- Door heights between 750-1500mm (29.5-59.0in.)

Features/Benefits

- Select from pre-engineered components and sub-assemblies to simplify the design and installation
- The robust Tube Assemblies and Lever Arms ensure smooth operation and the Struts and Gas Shocks provide stability and balance to the door operation.

Available

- TriMark can provide the entire hinge system or select components that are application matched to ensure balanced, smooth and safe operation.

Full System Solutions

The following are TriMark products that could be used in conjunction with Prima products to provide a complete access solution. Please inquire for application assistance.

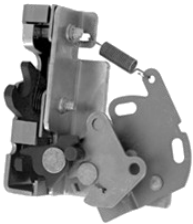

030-2000 Two-Point Free-Float Baggage Lock

Designed for baggage doors, this product is available in black or copper-nickel-chrome plated finish and features a two-point bell crank for remote actuation and is power lockable.

040-1400 Push Button Actuator

This Push Button Center Control features KeyOne™ Plus keying in a push button actuation and a 2-point bell crank linkage.

050-0250 Single Rotor Latch & Linkage Assembly

This latch and linkage system is intended for occupant or exit/entry doors that require compliance to FMVSS 206 standards. The flexible design allows for internal or external door mounting and provides automotive logic function with remote activating handles.

050-0500 Single Rotor Mini-Latch

Designed for small compartment and access doors where low cost slam action latching is desired. It features a single or 2 position compact rotary and is available in a variety of trip levers and mounting axles for ease of mounting and applications.

550-0100 Power Lock Actuators

TriMark has several high quality power door lock actuators available with a variety of features and configurations. The actuators have been tested and validated to meet stringent requirements thus ensuring a long life of trouble free operation.

500-1200

The integration of mechanical handles/latches and keyless-entry electrical products is available with TriMark's e-ASK System. This integrated system offers increased security, convenience and functionality with reduced system installation complexity and lower installation costs for demanding users of RVs, heavy trucks, emergency vehicles, agricultural and construction equipment.

090-0150 Rods

Multiple bend capability including compound bend angles. Available in pre-plated steel rod diameters: .125 (3.2mm), .168 (4.3mm), .214 (5.4mm), and .390 (9.9mm). Other rod diameters are available (please inquire).
