

140-0100
TriGuard Heavy Duty
Cam Lock

This heavy duty cam lock module is designed to be located in high stress areas and used as a primary mechanism for securing personnel doors, rear doors, hatches and windows or as a secondary mechanism in conjunction with a primary door latch. Providing additional strength and security, it can be used singularly or in multiples and can be operated and controlled via rods or cables from a central release such as TriMark's 010-1000 Inside Release Handle.
